Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1657

DETAILED ACTION

An amendment of 8/2/06 in response to an office action of 5/2/06 canceled claims 1-24 and added new claims 25-38.

Claims examined on the merits are 25-38, which are all claims in
5 the application.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C.
112:

10 The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

15 Claims 25-38 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was
20 filed, had possession of the claimed invention.

Support is not found in the specification for the invention being a method for the generation of cracks on a coated polymer substrate as now required by the preamble of claim 25. The specification describes the invention being a method for nanopatterning of a substrate as
25 required by the preamble of original claim 1. There is no description of generating cracks without nanopatterning of a substrate.

Support is not found in the specification for the polymer substrate not being deformable when using a brittle layer as now

Art Unit: 1657

encompassed by claim 25. If the polymer substrate is not deformable, cracks will not form when strain is applied.

In claims 32, 33 and 36, support is not found in the specification for a "crack coating" as a coating being applied to surfaces. While the specification discloses coating cracks, the specification does not use the term "crack coating", in regard to a coating applied. Applying a crack coating can mean applying a coating designed specifically for cracks, which is not supported in the specification.

10 **Conclusion**

The claims are free of the prior art.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
